Education

ABES ENGINEERING COLLEGE
B.Tech in Computer Science - 7.8 CGPA

Aug 2019 - Aug 2023
Ghaziabad

Work Experience

Programmer Analyst Trainee - GE (Cognizant)

Sept 2023 - Present

As a full-time test automation engineer, I've gained strong proficiency in Java, Selenium, TestNG, Cucumber, and REST Assured. I'm eager to apply and further develop these skills in a dynamic work environment, contributing effectively and advancing my professional growth.

Technical Skills

Programming Languages :: Core Java, Python

Framework and Libraries :: Selenium, TestNG, Cucumber, REST Assured, Spring Boot, Django

Version Control & Technologies :: Git, GitHub, HTML, CSS, Jenkins

Relevant Coursework :: Data Structures and Algorithms, OOPs, Database Management System

Projects

Automated Testing of Zigwheels Application(Java, Selenium, TestNG, Cucumber)

Dec 2023 - March 2024

- Automated the validation of login functionality using Google accounts, capturing error messages for invalid credentials.
- Developed and implemented comprehensive test cases and scripts for upcoming bikes, cars and popular used cars in particular a city, focusing on accurate data retrieval and presentation within specific criteria.
- Configured a robust automation framework supporting CI/CD pipelines using Jenkins and conducted parallel test executions to optimize testing efficiency.

OneCognizant (Java, Selenium, TestNG, Cucumber, Jenkins)

July 2023 - Aug 2023

- Developed and executed automated test scripts for Be.Cognizant's homepage, validating user information and ensuring seamless navigation through the header features.
- Successfully automated the process of verifying content accuracy on critical pages, including Corporate Functions and Ethics & Compliance, enhancing overall site functionality and user experience.

MyGurukul : A College Management System (Python, Django, HTML, CSS, JavaScript, Ajax) **Apr 2022 - Apr 2023**

- Project effectively addresses the comprehensive management of faculties, students, attendance, timetable, lds and various other essential aspects within the college or academic institution.
- Responsible for designing, implementing backend logic, maintaining server side and databases using Django framework.

Certifications

HackerRank - Problem Solving Intermediate [view](#)

CodeChef - SNACKDOWN 21 [view](#)

CodeChef - Problem Solving-2 [view](#)

Udemy - Selenium with Java and Cucumber [view](#)

Achievements

- Achieved a 3* rating and the highest rating of 1750+ points on CodeChef.
- Earned 5* ratings in Python, Problem Solving on HackerRank.
- Solved 200+ problems on LeetCode.
- Earned 50 Days Badge on LeetCode.
