Project

MyGurukul : A College Management System (Python, Django, HTML, CSS, JavaScript, Ajax) **April 2022 - April 2023**

- Project effectively addresses the comprehensive management of faculties, students, attendance, timetable, ids and various other essential aspects within the college or academic institution.
- The user base is typically divided into three categories : Student, Faculty and Administrator
 - Student :** Students are allowed to access personalized profiles and view attendance, timetable, assignments, marks etc.
 - Faculty :** Faculties are granted to diverse functionalities such as managing timetable, uploading assignments etc.
 - Administrator :** Administrator, equipped with valid credentials, gains access to a multiple of tasks within the system.
